Died, on the 16th inst., Clara, wife of Mr. Fred West, after a long sickness, aged 25 years.

Sunday, the 17th, was observed as Childen's Day at the M. E. Church, there being no services at the Congregational Church on that account. There was a very large attendance morning and evening, the exercises, which were varied, all pass ed off very pleasantly and successfully, the wonder being how so many children were brought together, that is by those who were not familiar with Sunday Schools, of which we have too large a class.

The man led a Cinnamon bear, who was made to dance for the crowd, and expected a contribution for the performance. A small boy led a creature of the monkey or ape style which danced also, as a partner of the lad and was the more civilized of the two. A female, with matted hair, complexion like a smoked ham, and wearing a Music-Vocal Duet remarkable costume, with all the fashionable colors, so perfectly and inconspicuousw blended, that one could not begin to tell where "mastic" and "olive" began or 'shrimp pink" and "crushed strawberry" ended. Her surplus waist, her tablier, ashes, polonaise and general drapery had that careless ease that would be the despair of our fashionable dressmakers. The S. S. Picnic.

The parents, officers and teachers of th Congregational Sunday School arranged a holiday for their school, which was sucabout eleven o'clock they had dinner spread on tables, in classes and were waited upon by the older ones, it being a children's day and they the honored guests. After dinner which was bountiful enough to feed sufficiently the Sunday School, visitors, Band and some base ball players, who came and found their old stamping grounds already occupied, the children went through some very interesting exercises. There was the winding and the unwinding of three May Poles, and three companies of boys in uniform went through a military drill: Carl Rust Captain Co. A, Eddie Sawtell of Co. B, and Mortimer Laundon

of Co. C. Of literary exercises, there was a Paraphrase upon the lesson of June 3rd by Miss Orrie Warner, another read by Sadie Watts, one by Carrie Tripp and one delivered by Will Eglin. They represented four classes, and were all reported as highly creditable. These exercises are certainly calculated to stimulate thorough study, and Bible knowledge thus obtained will

not be forgotten. The parents and teachers were very tired servitors, but the children especially voted it a delightful day.

As noticed last week, the German class, formed last February, closed its regular session for the summer months in order to be able to attack the German language with renewed energies next fall. Last Wednesday evening there was a social at Mr. Gannett's, which was attended by nearly all the members of the former German class, and Prof. Nast, of Bloomington, Ill., and Norton Horr, just returned from New York, were present by invitation. The evening was pleasantly spent, the visiting gentlemen, by their familiarity with the German language contributing to the sociability, the conversation being all in German. These gentlemen who have given years of study to the German language, one of them in its native land, were sur young people to celebrate her eighteenth | prised at the progress which the class had

A committee composed of Messrs Ritter and Mueller and Miss Warner were appointed to draft a constitution. The next meeting will be held June 27th, at the residence of Mrs. J. McDermott.

June weddings are in order, and the present week has been occupied with festivities One of the social events of Wednesday evening was the marriage of Miss Marian P. A. large assemblage of friends, among them with about a dozen or more crawling all many Cleveland guests, awaited in the Episcopal Church the arrival of the bridal

The floral decorations were especially raceful, and represented the service of oving friends, who hold in tender regard the fair bride whose childhood was passed among them, and whose winsome woman liness has drawn all hearts unto her. The bridegroom was accompanied from

Go Forward.

Never permit yourself to retrograde. It is "as easy as lying" to go backward, but no true man will ever take a step in that direction. Keep your position. Fight for it! Go forward, if only a single step in a year; even so little will be something gained. Fix your aim ahead and high. Never allow any fainting or falling back never think such a thing possible. From to-morrow always be able to look back to where you stood yesterday, not to have it look back upon you.

Continually going forward is success, se ong as it is in the right direction. It is the using of time, and not permitting it to use you, that marks the true business man. Drive business, but be not driven. Be the master, and not the slave. Examine well opportunities, then seize upon them and go

Keep moving. It is not the hare that loiters, but the tortoise that keeps progressing, who wins the race. Playing, toying along the route will never answer. There must be constant endeavor, a continual advance; if but a foot to-day, to-morrow will add another to the score, and a milemany orthem-soon will be covered. Keep noving. The sloth never reaches the end of the journey.

Go forward. There is inspiration in doing so. The more you conquer, the more easy it will be for you to do so. The prize may seem distant, but energy, perse verance and a brave heart will gain it. A single step backward makes two to be recovered; increases labor and paralyzes enleavor. Every one has (or should have) s ufficiency to do without performing labor twice, to say nothing of the cost of so doing. and the useless wearing and strain upon life. Remember that false and ill-directed

Reputation, independence and wealth lure you onward—never the reverse It is a grand thing to stand head high among your fellows; to compel fate to do your bidding, and not be shackled by its stern decrees, to wrestle with threatening failure, and come off conqueror in the struggle. Let there be no ng back when your hands have been placed upon the plow. If Alpine heights are before you, climb them with unflinching feet and unwearied arm. Remembe that though mountains may rear their inaospitable crests, Rome is beyond for you even as for him of old. No matter how mighty the tree, a sharp ax and repeated dows will bring its towering strength to the ground. The block from which you would carve the statue, around which a world may bow with the homage that genius ever commands, may lie deep in the quarry, but strong muscles will dig it out, and the triumph be more grand for the sweating toil. Nothing produces nothing. Enterprises of great pith and moment are not the work of an instant. The pigments and brushes and canvas are given, but the picture comes not without thought and effort and inspiration, never by stand-

ing still. Go forward for the right, the true and the holy. There is always something ahead. The battles of the past have been fought, and those of the future alone have any claims upon sword and spear. It is n the days to come that the banner, gemmed with the stars of hope, and glittering with the halo promise to mankind, to you is given to the wind. Look not back upon dust and ashes and mouldering bones, but forward, ever forward, to something of life and blood and health and a nobly beat-

Go forward. The days that remain for lishment are few, and much is yet to be done. There is no time for waiting. Keep upon the alert to gain another victory that will redound to your credit; that will render brighter and purer your man-hood; that will enable you to lay up some-thing against the hour of want. Keep alive to the actions and the requirements, to the possibilities as well as the necessities, of the age. By grasping firmly, make the intangible a living reality; give to the fleeting a palpable presence, and compel the obstinate to become the faithfully

Go forward. There is everything to woo Go forward. There is everything to woo and nothing to discourage. At every glance the needs of earth are given to your view. Temptation is upon every hand, and brothers are falling thickly by the wayside; woman is stretching out to you her helpless arms for pity and succor; the wrong is trampling down the right in many places, and truth is driven to the wall by falsehood. A giant work remains to be done, and the ranks require filling up. Advance the standards of morality, and justice, and temperance, and forward the struggle!

Go forwerd. Let nothing tempt you to turn your face backward and sigh for the days gone before, for rest and ease; the end is before, not behind; the golden reward in the future, not the past. That which is gone can never be recovered, but
